Speakers: **Hugh Hayes, Chairman, Motherwell Bridge Ltd.**  
Venue: Scottish Engineering, 105 West George Street, Glasgow, G2 1QL  
Date: **Wednesday, 09-April-2008**  
Time: 1:30pm arrival and buffet for **2:00pm start** - 3:30pm

*Synopsis*

Hugh Hayes has been Chairman of Motherwell Bridge since early 2003, when he was appointed to restructure the group following near total collapse. In the intervening period the company has gone from strength to strength and is currently extremely profitable and completely debt free. Today he provides a light hearted view of the turnaround, and the benefits achieved by the adoption of 'lean thinking' in the business units.
