

# UV-C Air Sterilisation Products

UVent is the UK's leading design & manufacturer of the revolutionary UV-C air sterilisation products to supply ultra-clean air to hospitals, healthcare and manufacturing facilities.

**Guaranteed** results to remove airborne pathogens, bacteria and viruses including **Coronavirus** through ultra-violet germicidal irradiation.

The unit maximises use of minimum air quality to affect the greatest room area. The unit is designed to serve an area of 50-80 cu meters approximately and comes complete with fixed speed fan setting with a manual override fan room purging.

*Specialist care  
needs sterilised air...*

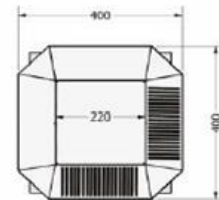

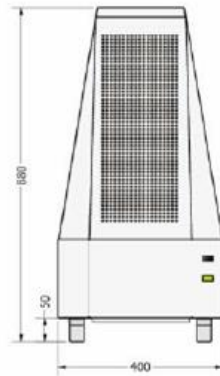

Barking, Havering and Redbridge **NHS**  
University Hospitals  
NHS Trust
